The office is in Prague II, Stepanska Street 33. The political deputy commander is Lieutenant Colonel (fnu) Suchanek.
 - 2. The following nationalized firms are under the HSVS:
 - a) in Bohemia Konstruktiva, Armastavland Posista
 - b) in Moravia Moravostav
 - c) in Slovakia Stavoindustria

Each branch of the firms listed above is assigned a code designation and number. For instance, Konstruktiva branches are indicated by KO 1, KO 2, etc.

- 3. A shortage of skilled personnel has forced the army to lend some of its construction engineers and draftsmen to these civilian organizations. This is, however, only an emergency measure; the military employees are to be replaced by civilians as the latter become available. The soldiers are considered unsatisfactory from the point of view of security and because they lack the incentive offered by civilian wages.

The following military personnel are assigned to the office: Lieutenant Colonel (fnu) Molacek, about 35 years old; Senior Captain Engineer (fnu) Ladyr, 32; and First Lieutenant Engineer (fnu) Ustahal, 27. The third and fourth floors of the building at U pujcovny 3 are occupied by the Army Construction Technical Institute (Vojensky Stavebni Technicky Ustav) (VSTU), commanded by Senior Captain Engineer J. Vachalovsky, 32 years old.
